RE: Surface Compliance Inspection of Notice Project Area and Closure of Notice
Case File, UTU-71502

Dear Mr. Hilyard:

On July 6, 1983, a Notice was received in this office from you for proposed mining-related operations on the Grant #1 and Grant #2 mining claims (UMC 263241 and 263242). The project area is described as being in sections 10 & 15, T. 21 S., R. 1 E., SLM. In following years, Notices were filed by you, and correspondence was sent between the Bureau of Land Management (BLM) and yourself with respect to inspections and compliance with the federal regulations. Although other case file numbers have been used in the past, the BLM record is maintained in case file UTU-71502 and that file is inclusive of the complete record for the activity at this project area.

On June 16, 2000, you met with Rod Lister and Michael Jackson of the BLM. At the meeting, you agreed to remove the equipment that was not being used for ongoing mining operations and that was in disrepair. The equipment included a dozer, trommel, and other parts. In addition, you agreed to construct a berm to block the two-track, access road at the south end of the project area. On August 1, 2000, the project area was inspected by BLM staff, and you have complied with that directive. Your compliance is appreciated.

As no ongoing mining-related activity, that would result in a surface disturbance at a Notice or Plan level, is present at the project area, the case file UTU-71502 is closed. If you propose surface-disturbing activities, that exceed casual use, then you must file a new Notice in this office, at least 15 days prior to the start of that activity. Your Notice would be reviewed for

OIL, GAS AND MINING

undue or unnecessary degradation of federal land, including whether the proposed use of equipment would be customary for that activity.

If you have any questions, please contact Michael Jackson at (435) 896-1522.

Sincerely,

A handwritten signature in black ink, appearing to read "Dave Henderson". The signature is fluid and cursive, with a large initial "D" and a long, sweeping underline.

Dave Henderson
Associate Field Manager
